Mid Atlantic Fab Provides Fabrication Services In A Controlled Lean Manufacturing Environment

Mid Atlantic Fab is a privately owned industrial pipe fabrication facility servicing the power, chemical, refining, oil and gas industries. Mid Atlantic Fab's annual production capacity currently exceeds 400,000 weld inches with capability up to 60 inches in diameter. From initial planning to final execution, Mid Atlantic Fab is committed to exceeding our clients' expectations.

Specialty Equipment:

- WATTS Pipe Cutting System
- Sub Arc Systems w/ Fixed Boom Manipulator
- Positioners up to 24,000 lbs.
- MIG Welding Stations
- MARCO Engineered Blast & Paint Booths

Mid Atlantic Fab's state-of-the-art facility provides our clients with a convenient location in the heart of the Marcellus Utica Shale region.

Our facility's operation is focused on providing efficient, quality production to the customers we serve. Our use of latest technology ensures enhanced performance and reliability in meeting project execution requirements.

- Pipe Spool Design & Drafting
- Procurement & Material Control
- In-House Testing
- Robotic Cutting & Welding
- Multiple Fabrication Bays
- 3D Modeling
- QA/QC Services
- Painting & Coating

Serving our clients is paramount; Mid Atlantic Fab has the flexibility to quickly respond to any inquiries or construction situations. Please contact:
